

HYDRO GUARD™

EV2 MANIFOLD

Commercial Quality Filter Manifold

HDG-EV2 Manifold

Commercial Quality Two Stage Filter Manifold

Everpure Compatible

Data Sheet

Hydro Guard™ HDG-EV2 Manifolds

are engineered for dependable performance in demanding commercial water filtration applications and is compatible with Everpure cartridges. The Hydro Guard™ HDG-EV Two Stage Filter Head features a cartridge nesting design that provides a secure, durable fit while allowing two cartridges to operate in series for flexible water treatment.

Hydro Guard™ HDG-EV2 Manifolds

features a built-in water shut-off valve and flushing valve to make cartridge changeouts fast, clean, and convenient. The included modular box mounting bracket and screws simplify installation without requiring an additional mounting plate and allow future add-on components to be retrofitted without disassembling the system.

Hydro Guard™ HDG-EV2 Manifolds

are engineered for durability, strength, and long service life and features corrosion-resistant hardware for demanding commercial environments. The system can be configured with a fine filtration cartridge and compatible specialty treatment cartridges, while all wetted parts are manufactured to NSF® standards for added confidence in commercial water filtration applications.

FEATURES

- ✓ Commercial-Grade Durability & Performance
- ✓ Compatible With Everpure Cartridges
- ✓ Corrosion-Resistant Commercial Construction
- ✓ Fast, Tool-Free Cartridge Replacement

INSTALLATION INSTRUCTIONS

- Install the equipment on a smooth, level, and stable surface.
- Maintain a proper air gap at the end of the drain line.
- Position and secure the drain line directly above a floor drain or standpipe.
- When soldering or installing copper piping, protect the control valve from excessive heat to prevent damage.

OPERATION INSTRUCTIONS

- Change cartridges on a regular six (6) month preventative maintenance program.
- Change cartridges when capacity is reached or when pressure falls below 10 psi (0.7 bar).
- Always flush the filter cartridge at time of installation and cartridge change.
